Subject : Proposal annual membership fee 2010

Leiden, 28 februari 2010

Dear Mr. Holmberg,

In consideration of the worldwide financial recession and its impact on our association we hereby propose an adjustment of the annual membership fee for EFEE. We would like to have taken in consideration that in the Netherlands the appliance of explosive engineering is decreasing due to the lack of professional companies. Our association is for the major part dependent on its fifty-two paying members with no backing of professional companies. Therefore we propose that the annual membership fee for 2010 be reduced to a total amount of €300.

Perhaps this can be taken into voting by the EFEE at the next council meeting in the spring of this year in Kiev ?

Yours sincerely,

Han van Limburg
Treasurer NVvS
